THE 2027 RIDE BOOK

RIDING SINCE 2011

For some the desire burns deep to see what's over the next crest. What's around the next corner. It can be an insatiable burn that is only eased by travel. Exploring new places.

Maschine began in 2011 powered by this desire.

For over 15 years Nick Selleck as the founder and owner of maschine has led riders on adventures worldwide. Once we explored every state and territory in Australia naturally we started looking overseas.

We continue to share these adventures in 2027.

ADVENTURE ACADEMY

Sharpen the skills you already have.

INVEST IN THE SKILLS TO TAKE YOUR ADVENTURES FURTHER

Most rider training courses run for a day, maybe two. Adventure Academy runs for four — because riding skills are only half the job. You'll also learn to navigate off the grid, fix what breaks on the trail, learn to look after your body, taught by Nick Selleck and coaches with decades of dirt behind them. Everyone lives in it — riders and instructors together, the learning running well past dark once the bikes are parked for the night. Four days. Eat it, breathe it, sleep it.

DRE ACADEMY

Unlock the secrets of adventure riding.

UNLOCK THE SECRETS OF ADVENTURE RIDING

Two days built around the Ducati DesertX and Multistrada — on-road, off-road, and everything a factory demo day never has time to teach you. Day one is technique: body position, the drills that actually build off-road confidence, what to carry and how to fix a flat when it counts. Day two takes it onto real trails and in some genuinely spectacular country, testing what you learned with support right there if you need it. Private terrain access, a proper dinner with fellow Ducatisti and good local wine on Saturday night, and instructors who'll actually answer the question you've been too proud to ask.

2027 DATES

NSW	**TBC September**
